Tom,

As we schedule this briefing with Susan will you have any time frame that you cannot be in the office over the next 1-3 weeks?

It has to be scheduled. Bertanna should include your availability in the scheduling.

Sam and Bertanna,

Tom will be a part of the briefing for Susan on Lindsay Light - representing the remedial program in case something comes up on Kerr McGee.

Can you attend the Lindsay Light briefing? I don't know much about Kerr McGee. Otherwise it could be Ostrodka.

Sam- please work with Bertanna to schedule a Lindsey Light briefing. One of the Remedial Branch or Section Chiefs should attend as well in case questions come up on Kerr McGee. Also I would participate by phone. The actual briefing would probably work best if you did the briefing instead of staff. Thanks.

Subject: Notes from Staff Meeting.

From Staff Meeting:

1. The Enbridge Response will soon be getting its own "poster/recognition" on the 19th floor.
2. Susan wants all DDs present at the Northwest Indiana Times Editorial meeting which originated through our work in Gary. It may be rescheduled for next week. (I will talk to Jeff K regarding next steps.)
3. Susan requested a written synopsis (brief) of the resolution of the NPS issue in Keweenaw as well as likely topics for the meeting between Mark Lopez and Jim V planned for tomorrow at 1:00. Susan may drop in. She would like us to give the NPS info along with NPS contacts to Mark. (I will handle.)
4. Susan is following the WV Chemical spill closely, including bankruptcy of responsible company and the new company that was formed afterwards. New CEO is same individual as CEO of Rosebud Coal. Susan has made Tinka the point person. Susan will be looking for info/updates on coal washing, the newly discovered constituents in the Ohio River, and industry required reporting including any possibly under EPCRA. Tinka will likely reach out to the DDs.

5. Susan announced the roll out of the SC2 Cities and asked Jeff K to begin working on Feb event in Flint. I told Susan that we are working out the “lead” situation with Bharat.
6. Susan would like a briefing on Lindsay Light. She is intrigued by the scope of the cleanup in light of a new school being built and the high concentration of new residential development in the area.
7. Susan would like BF events scheduled for 2 congressional districts--Jackie Walorski (South Bend) and Gwen Moore (Milwaukee). She would like the Indiana event planned for Feb. (I will work with Jeff K.)
8. Susan asked Ronna to reschedule the Indiana Industries Meeting/Forum that was cancelled last year.
9. The United Tribes of Michigan asked for a meeting with Susan and the DDs. IEO will plan and then reminded everyone of the Feb RTOC meeting.
10. This weekend’s power down will not impact the IT network or servers.

Other issues discussed.

Alan Walts is preparing a response to comments submitted on the Polymet EIS. General discussion on Pet Coke piles. Margaret indicated that LCD is reviewing Whirlpool’s workplan for Clyde. The first Shoreline Cities grant will be awarded to Duluth in Feb.
